Shakespeare wrote Hamlet's words, 'the time is out of joint' more than 400 years ago. Today, throughout the world, the sense of dislocation seems to be increasing. In this century, globalisation has seen an increase in religious and cultural

problems, but the solutions remain beyond the reach of leaders who have failed to recognise the consequence of their actions. The result is a world that fails to reflect our fundamentally social and unselfish nature. Now is the time to question supposedly democratic processes and the privileged status of leaders and elite groups. Our brains have made us capable of much, but can we find a new world before this one falls apart? Professional technicians count on Chilton®'you can too! The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.
