The Feline Friendship Oct 09 2021
Psychiatrist Jack Caleb and Chicago cop John Thinnes return in this “well-crafted procedural . . . intriguingly presented . . . spiked by psychological insight” (Booklist). After a woman is brutally raped in the posh Lincoln Park neighborhood of Chicago and a second rape victim is murdered, the hunt for a serial rapist/killer becomes a “heater” case, front-burnered due to the scrutiny of publicity. The pressure is on Det. John Thinnes and his new partner, a strong-willed feminist cop named Don Franchi. Psychiatrist Jack Caleb is acting as a police consultant to construct a psychological profile of the rapist, and Thinnes asks his friend to step in and mediate the friction between him and his partner. If they’re going to solve an increasingly complicated and disturbing case that matches the MO of earlier, similar crimes in another Illinois city, they need to find a way to work together .

White Tiger Feb 13 2022 The murder of a Vietnamese woman reawakens wartime trauma for cop John Thinnes and psychiatrist Jack Caleb in an "absolutely gripping" police procedural (Chicago Tribune). After a woman is shot in the Little Saigon neighborhood of Chicago, Detective John Thinnes realizes he knew the victim when

he was stationed in Vietnam. In fact, he was the best man when his friend Bobby Lee married Hue An. When an anonymous tip comes in that Thinnes might be the real father of her son, Tien Lee, who is the prime suspect in her murder, he is pulled off the case and his partner Don Franchi takes over. At Hue An Lee's wake, a schizophrenic man insists there is a connection between her death and an unsolved murder in wartime Saigon.

Psychiatrist Jack Caleb is called in to help the schizophrenic mourner, but the therapy is kicking up his own PTSD from serving as a medic during the war. Working with Caleb, Thinnes remembers a deadly criminal from his days as an MP in Saigon—known as White Tiger—who he fears has resurfaced in Chicago. Now it's up to the two vets to stop him . . .

The Matrix of Insanity in Modern Criminal Law Mar 14 2022 This book challenges the assumptions of modern criminal law that insanity is a natural, legally and medically defined phenomenon (covering a range of medical disorders). By doing so, it paves the way for a new perspective on

insanity and can serve as the basis for a new approach to insanity in modern criminal law. The book covers the following aspects: the structure of the principle of fault in modern criminal law, the development of the insanity defense in criminal law, tangential in personam defenses in criminal law and their implications for insanity and the legal mechanism of reproduction of fault. The focus is on the Anglo-American and European-Continental legal systems. Given the attention consistently drawn by international and domestic events in this context, the book will be of interest to a broad and growing international audience.

Michael Allen's 2012 e-Learning Annual Nov 22 2022 The field of e-learning continues to experience dramatic and turbulent growth. Over time, as technology has improved and the method's real capabilities have emerged, e-learning has gained widespread acceptance and is now the fastest growing sector of corporate learning. As in years past, Michael

Allen's Annual offers a diverse and important collection that contains some of the most current insights and best practices that will help both educators and workplace learning leaders address issues of design and implementation, as well as strategy and culture. In addition, this new volume offers a diverse mix of content that spans the full spectrum of technology-based learning. Year after year, the Annual discusses emerging trends in social media; showcases e-learning innovation; presents contemporary- and best-practices; tackles big-picture, strategic issues; and provides a host of useful tips and techniques. Additional content is also available online. Praise for Michael Allen's 2012 e-Learning Annual "Michael Allen's Annual really is annual. I found new examples and provocative ideas—just what I was looking for."

—Allison Rossett, professor of educational technology, San Diego State University

"Just another academic anthology? Hardly! Michael Allen has convinced e-learning's super-heroes to join forces to crush complacency, demolish dogma, rewrite

rules, streamline strategies, and light a brighter future for e-learning. Warning: The accumulated wisdom and original thinking of this elite team of designers, practitioners, consultants, and researchers will leave you dissatisfied with your current e-learning efforts and aching to put their ideas into play."

-William Horton, author, e-Learning by Design and consultant, William Horton Consulting "The real learning at conferences takes place in the hallways. This wonderful book is like eavesdropping on those conversations, except that

A Danger to Society Jul 06 2021 A commentary about the notions of law, crime and criminal behavior. "A danger to society," is what they called him. After a flawless life, after defending his country, after becoming a teacher, after marrying his wife and raising his daughter, he is mistaken for a common thug. But once mistakes are made, they are hard to take back. Especially in Smallton, America where egos are vulnerable, the leadership feels the need to protect its own. While the smear campaign against "Dawg" gets worse, he strives to set the record straight with the limited resources he has available to him. But, what is he up against?

The Origins and Continuity of Chinese Sociology Aug 07 2021 This book examines the origins and basic concepts of sociology in China and traces the discipline's evolutionary trajectory. Building on the premise that qunxue, which goes back to Xunzi, is essentially the Chinese antecedent of modern/Western sociology, contributors try to show the distinctive ways qunxue addresses a wide range of both foundational and practical issues related to society using its own set of conceptual, analytical and methodological apparatus. The book argues that the rise of Chinese sociology will depend crucially on whether the rich heritage of traditional Chinese sociology can be fully appreciated and integrated with the Western tradition of learning. Following two preliminary chapters laying out qunxue's basic parameters, the four remaining chapters focus on its four primary concerns: cultivation of the self (xiushen), regulation of the family (qijia), governance of the state (zhiguo),

and realization of universal peace
(pingtianxia).

Coral Reefs Feb 19 2020 Very Short
Introductions: Brilliant, Sharp, Inspiring
Coral reefs are among the most beautiful,
and most diverse, of ecosystems. Early
seafarers were wary of them, naturalists
were confused by them, yet many coastal
people benefited greatly from these
mysterious rocky structures that grew up
to the surface of the sea. They have been
rich in their supply of food, and they
provided a breakwater from storms and high
waves to countless coastal communities
that developed from their protection.
Their scale is enormous and their value
high. Found in countless locations around
the world, from the Indo-Pacific coral
reef province to the Caribbean and
Australia, they support both marine and
human life. But today coral reefs are in
trouble, with many dying or suffering from
over-exploitation, pollution, and the
warming and acidification of the oceans.
Understanding reefs, their conservation
and management, is vital, and so is
conveying this to authority if we are to

preserve these remarkable ecosystems. In this Very Short Introduction Charles Sheppard describes the complex structure and interdependencies of a reef, how reefs have evolved, the diversity of marine life that they support, and their importance to the human population who live beside them. This new edition describes the latest research on the complex symbioses of coral animals with microorganisms. It also highlights the scale of the challenge facing our reefs today, following recent ocean heatwaves - part of wider climate disruption - that killed half the world's reefs, and considers what can be done to preserve these essential and vibrant ecosystems. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Overview of U.S. Law Dec 11 2021 This is a book that provides a preliminary examination of seventeen different

subjects covered in law schools across the United States. Each chapter offers a succinct and organized review of the topic and begins with a detailed outline of the subject. Expert legal academics, drawn from a number of outstanding American law schools, authored each of the different chapters. The opening chapter of the book provides an overview of the legal system in the United States, and offers comparison with a civil code system. The book covers basic first year courses like Contracts, Torts, Criminal Law, Civil Procedure, Constitutional Law, and Property. It also examines typical bar-type courses such as Wills and Trusts, Evidence, and Family Law. Finally, there are chapters on some "hot topics," such as Intellectual Property. The final chapter of the book examines the practice of law in the United States. Overview of U.S. Law is intended for students who are considering attending law school, those who plan to participate in an LL.M. program in the United States, and those outside the U.S. who seek an overview of the legal system. The chapters were

designed with foreign lawyers and international students in mind. This book is part of a project, which the editors affectionately refer to as "The U.S. Law Project." The actual project includes lectures on each of the subjects covered in the book, and the video lectures are presented by the same individual who authored the chapter in the book.

Tao of Surfing Apr 22 2020 A New Way of Healing "Tao of Surfing is an inspired book and a unique reflection that will have a lasting effect on anyone who reads it." -Bob Walch, The Monterey County Herald The roads I travel and the waves I search for and ride exemplify the flowing movement and continuous change of life itself. - From the book "Author Allen in fine, thoughtful fashion writes well, informally, and there is haiku in his observations A delightful book, effortlessly wise." -The Book Reader "From the first pages of this remarkable book I was captivated by the gently profound philosophy of riding through life with graceful balance." -Greg Ambrose, author of Surfer's Guide to Hawaii and co-author

of *Memories of Duke, the Legend Comes to Life* Internationally acclaimed and Pulitzer Prize nominated author Michael A. Allen, takes you on a journey into the recesses of your soul and explores the ontological question, "What is our underlying essence?" Mr. Allen uses the metaphor of the sea, and its ebb and flow, to describe the Tao of life's cycle. And he discovers within this unique reflection a new way to comfort and heal the Self from the trauma of death. His long time interest in film brought him to write the screenplay adaptation with his brother in law Alex Carig in order to make *Tao of Surfing* into a full-length feature motion picture. Mr. Allen was initially inspired to write *Tao of Surfing* after his brother-his surfing partner-died from the complication of AIDS.
