Brainwashing: The Story of Men Who Defied It Jun 13 2022 First published in 1956, this book by U.S. journalist and intelligence agent Edward Hunter comprises dramatic first-hand accounts from Korean War veterans who survived P.O.W. camps and Communist attempts to brainwash them. "The new word brainwashing entered our minds and dictionaries in a phenomenally short time. [...] The reason the word was picked up so quickly was that it was not just a clever synonym for something already known, but described a strategy that had yet no name. [...] The word came out of the sufferings of the Chinese people. Put under a terrifying combination of subtle and crude mental and physical pressures and tortures, they detected a pattern and called it brainwashing. [...] What they had undergone was more like witchcraft, with its incantations, trances, poisons, and potions, with a strange flair of science about it all, like a devil dancer in a tuxedo, carrying his magic brew in a test tube." A true and terrible story of the men who endured and defied the most diabolical red torture—the war book you will never forget. "A fascinating document."—Chicago Tribune

Humanitarian Wars? Aug 23 2020 In the eyes of Rony Brauman of *M decins sans Frontiers*, wars are always triggered in the name of morality. Today's "humanitarian" interventions are little more than new moral crusades—and their justifications are based on lies. There are plenty of examples of hawkish propaganda in recent years: Saddam Hussein's mythical weapons of mass destruction; a dubious genocide in Kosovo; doctored figures of famine in Somalia; and a fake massacre of protesters in Libya. Without being militantly non-interventionist, Brauman is extremely suspicious of the thirst for war displayed by many of today's world leaders, the consequences of which are devastating. He is critical of international peacekeeping bodies and tribunals: the UN Security Council and the International Criminal Court represent, for him, the interests of the powerful before all else. Basing his argument on the criteria for a "just war," Brauman criticizes the Western obsession with imposing democratic values by force. In this sober and convincing book, he thoroughly dismantles the notion of the justness of "humanitarian wars."

Dark Psychology Jan 08 2022 There are 2 books in this combo, which are the following: Book 1: In this book, you will learn more about the culture we live in today. Are we being brainwashed by the media? How is social media affecting us? And with those two questions in mind, does this mean there are more narcissists today than ever before? Not only are we going to dive into these specific topics, but we will also talk about real cults. Cults have existed for a long time. Some even see the relationship between cults and actual religions. But why are cults so dark and scary? How do cult leaders make people believe in something that is not true, or make them do things they would have never done before they were brainwashed? Let's take a look. Book 2: Men and women are not the same. We all know that they think differently. But how do they use those thinking patterns to get what they want? How do they persuade the other gender to give them what they desire? This is where some human psychology will be helpful. The differences will be addressed in the first chapter of this book. Moving on, some false concepts about mind control will be discussed, as well as persuasion techniques that you may have never heard about. The reasons why people choose to buy or do something, is something that will be a determining factor to understanding the psychology of persuasion. This is what you will learn.

Brainwashing May 12 2022 Throughout history, humans have attempted to influence and control the thoughts of others. Since the word 'brainwashing' was coined in the aftermath of the Korean War, it has become part of the popular culture, served as a topic for jokes, and been exploited to create sensational headlines. It has also been the subject of learned discussion from many disciplines: including history, sociology, psychology, and psychotherapy. But until now, a crucial part of the debate has been missing: that of any serious reference to the science of the human brain. Descriptions of how opinions can be changed, whether by persuasion, deceit, or force, have been almost entirely psychological. In Brainwashing, Kathleen Taylor brings the worlds of neuroscience and social psychology together for the first time. In elegant and accessible prose, and with abundant use of anecdotes and case-studies, she examines the ethical problems involved in carrying out the required experiments on humans, the limitations of animal models, and the frightening implications of such research. She also explores the history of thought-control and shows how it still exists all around us, from marketing and television, to politics and education.

Battle for the Mind Jul 14 2022 How can an evangelist convert a hardboiled sophisticate? Why does a prisoner of war sign a "confession" that he knows is false? How is a criminal pressured into admitting his guilt? Do the evangelist, the POW's captor, and the policeman use similar methods to gain their ends? These and other compelling questions are discussed in this definitive work by William Sargant, who for many years until his death in 1988 was a leading physician in psychological medicine. Sargant spells out and illustrates the basic technique used by evangelists, psychiatrists, and brainwashers to disperse the patterns of belief and behavior already established in the minds of their hearers, and to substitute new patterns for them.

Brainwashed Aug 03 2021 'A frankly brilliant book' The Guardian 'An extraordinarily engrossing and wide-ranging analysis of a word and a concept. I fell under its spell immediately' Simon Garfield In 1953, a group of prisoners of war who had fought against the communist invasion of South Korea were released. They chose - apparently freely - to move to Mao's China. Among those refusing repatriation were twenty-one American GIs. Their decision sparked alarm in the West: why didn't they want to come home? What was going on? Soon, people were saying that the POWs' had been 'brainwashed'. Was this something new or a phenomenon that has been around for centuries? The belief that it is possible to marshal scientific knowledge to govern someone's mind gained enormous attention. In an era of Cold War paranoia and experimentation on 'altered states', the idea of brainwashing flourished, appearing in everything from critiques of CIA research on LSD to warnings of corporate groupthink, from visions of automaton assassins to conspiracy theories about 'global elites'. Today, brainwashing is almost taken for granted - built into our psychological and political language, rooted in the way we think about minds and societies. How did we get to this point - and why? Psychoanalyst and historian Daniel Pick delves into the mysterious world of brainwashing in the twentieth and twenty-first centuries, from The Manchurian Candidate to ISIS, TV advertising to online algorithms. Mixing fascinating case studies with historical and psychological insights, Brainwashed is a stimulating journey into the mysteries of thought control.

Terror, Love and Brainwashing Nov 18 2022 This book explains how people can be radically manipulated by extreme groups and leaders to engage in incomprehensible and often dangerous acts through psychologically isolating situations of extreme social influence. These methods are used in totalitarian states, terrorist groups and cults, as well as in controlling personal relationships. Illustrated with compelling stories from a range of cults and totalitarian systems, Stein's book defines and analyses the common identifiable traits that underlie these groups, emphasizing the importance of maintaining open yet supportive personal networks. Using original attachment theory-based research this book highlights the dangers of closed, isolating relationships and the closed belief systems that justify them, and demonstrates the psychological impact of these environments, ending with evidence-based recommendations to support an educational approach to awareness and prevention. Featuring a foreword by John Horgan, the new edition has been fully updated to include recent work on political extremism and radicalization and totalitarian systems, as well as the recent highly publicized NXIVM case. *Terror, Love and Brainwashing*, second edition is essential reading for professionals, policy makers, legal professionals, educators and cult survivors and their families themselves.

Thought Reform and the Psychology of Totalism Sep 16 2022 Informed by Erik Erikson's concept of the formation of ego identity, this book, which first appeared in 1961, is an analysis of the experiences of fifteen Chinese citizens and twenty-five Westerners who underwent "brainwashing" by the Communist Chinese government. Robert Lifton constructs these case histories through personal interviews and outlines a thematic pattern of death and rebirth, accompanied by feelings of guilt, that characterizes the process of "thought reform." In a new preface, Lifton addresses the implications of his model for the study of American religious cults.

Dark Persuasion Dec 19 2022 A harrowing account of brainwashing's pervasive role in the twentieth and twenty-first centuries This gripping book traces the evolution of brainwashing from its beginnings in torture and religious conversion into the age of neuroscience and social media. When Pavlov introduced scientific approaches, his research was enthusiastically supported by Lenin and Stalin, setting the stage for major breakthroughs in tools for social, political, and religious control. Tracing these developments through many of the past century's major conflagrations, Dimsdale narrates how when World War II erupted, governments secretly raced to develop drugs for interrogation. Brainwashing returned to the spotlight during the Cold War in the hands of the North Koreans and Chinese. In response, a huge Manhattan Project of the Mind was established to study memory obliteration, indoctrination during sleep, and hallucinogens. Cults used the techniques as well. Nobel laureates, university academics, intelligence operatives, criminals, and clerics all populate this shattering and dark story—one that hasn't yet ended.

The Rape of the Mind: The Psychology of Thought Control, Menticide, and Brainwashing Oct 05 2021 "SINCE 1933, when a completely drugged and trial-conditioned human wreck confessed to having started the Reichstag fire in Berlin, Dr. Joost A. M. Meerloo has studied the methods by which systematic mental pressure brings people to abject submission, and by which totalitarians imprint their subjective "truth" on their victims' minds. The first two and one-half years of WWII, Dr. Meerloo spent under the pressure of Nazi-occupied Holland, witnessing at first-hand the Nazi methods of mental torture on more than one occasion... Then, after personal experiences with enforced interrogation, he escaped from a Nazi prison and certain death to England, where he was able, as Chief of the Psychological Department of the Netherlands Forces, to observe and study coercive methods officially.... After the war, he came to the United States... As more and more cases of thought control, brainwashing, and mental coercion were disclosed - Cardinal Mindszenty, Colonel Schwable, Robert Vogeler, and others - his interest grew. It was Dr. Meerloo who coined the word menticide, the killing of the spirit, for this peculiar crime... It is Dr. Meerloo's position that through pressure on the weak points in men's makeup, totalitarian methods can turn anyone into a "traitor." And in *The Rape of the Mind* he goes far beyond the direct military implications of mental torture to describing how our own culture unobtrusively shows symptoms of pressurizing people's minds. He presents a systematic analysis of the methods of brainwashing and mental torture and coercion, and shows how totalitarian strategy, with its use of mass psychology, leads to systematized "rape of the mind." He describes the new age of cold war with its mental terror, verbocracy, and semantic fog, the use of fear as a tool of mass submission and the problem of treason and loyalty, so loaded with dangerous confusion. *The Rape of the Mind* is written for the interested layman, not only for experts and scientists." -Print ed.

1984 Jan 16 2020 Nieuwspraak, Big Brother, het vocabulaire uit 1984 is in onze taal opgenomen en een eigen leven gaan leiden. De roman van George Orwell uit 1949 over de strijd van Winston Smith, ambtenaar op het ministerie van Waarheid, tegen de alles doordringende Partij, en zijn gedoemde liefde voor Julia heeft niets van zijn literaire zeggingskracht verloren. In Orwells steeds weer herdrukte anti-utopie verkeert de wereld in de wurggreep van een systeem dat is gegrondvest op de verbreiding van angst, haat en wreedheid, en dat iedere vorm van persoonlijke vrijheid en

individualiteit uitsluit. 1984 is onverminderd geldig als benauwend nauwkeurig blauwdruk van elk dictatoriaal regime.

Brainwash Feb 09 2022 What would it take to turn you into a suicide bomber? How would you interrogate a member of Al Qaeda? With access to formerly classified documentation and interviews from the CIA, the U.S. Army, MI5, MI6, and the British Intelligence Corps, acclaimed journalist Dominic Streatfeild traces the history of the world's most secret psychological procedure. From the cold war to the height of today's war on terror, groups as dissimilar as armies, religious cults, and advertising agencies have been accused of brainwashing. But what does this mean? Is it possible to erase memories or to implant them artificially? Do heavy-metal records contain subliminal messages? Do religious cults brainwash recruits? What were the CIA and MI6 doing with LSD in the 1950s? How far have the world's militaries really gone? From the author of the definitive history of cocaine, Brainwash is required reading in an era of cutting-edge and often controversial interrogation practices. More than just an examination of the techniques used by the CIA, the KGB, and the Taliban, it is also a gripping, full history of the heated efforts to master the elusive, secret techniques of mind control.

Brainwashing in the High Schools Dec 27 2020 One third of the Americans taken prisoner in Korea succumbed to Communist brainwashing, according to U.S. Army studies, and assisted or collaborated with their captors. The Communist brainwashers recognized and took skillful advantage of the Americans' ignorance and confusion concerning United States history, the free-enterprise economy, and the representative system of government. Placing the blame squarely on faulty presentation of history and social studies in the American schools, Professor Root, author of the controversial Collectivism on the Campus, examines eleven of the most widely used United States history textbooks. In these books he finds overwhelming evidence of hostility to traditional American principles, of left-wing partisanship and of class-warfare ideology. Professor Root presents the evidence in these pages, and upon it he bases the following conclusions: that American students are indoctrinated with a Marxian concept of United States history... that the present school generation is being conditioned to accept a socialistic and totalitarian way of life... that, as a consequence, resistance to Communist cold-war techniques is being broken down. Brainwashing in the High Schools quotes freely from the eleven textbooks to illustrate their "biased presentation" of American history from the time of the founding Fathers to the mid-twentieth century. The author makes a strong case and suggests radical changes in educational approach if we are to survive as a free nation. His book is essential reading for parents and for every teacher of history and social studies.

Blind Her Mind Make Her Mind Dec 15 2019 Have you ever wondered why some people men can get their girls to obey, while others can't seem to manage themselves? A lot of this has to do with a man's lack of knowledge when it comes to girl obedience training. Most men simply don't know how to handle a girl appropriately. Why do you think this is? The answer may have something to do with the fact that a girl's mother, during childhood, handled her most of the time. The mother reprimanded the female child while the father was left to work and provide for the family. Whenever a girl was reprimanded by her father it was usually a harsher experience than what it was compared to when the mother scolded and punished the girl. Girls may have had some fear or apprehension, even trust issues, when it came to the first man figure in their life. For this reason there exists a disconnection between men and their girls. Believe me when I tell you that it is easier to train a girl than you may think. You see all you really have to do is master the art of Chinese brainwashing techniques. I'll explain more about this in this book, not to worry. Throughout this book, in fact, you're going to learn a lot of things that will help you properly train your girl so she obeys you without question. She'll love to obey you when you apply these techniques. She'll be upset with herself when she disobeys in fact. It's pretty neat, I think you'll find. Imagine the man fixing to get divorced. He can't stand his girl and probably neither can she stand him. What if I told you I could help you fix this problem? Would you pin your ears back and read this book from cover to cover to learn the secret? Of course you would. And, let me say once you learn these techniques you'll be much happier and so will your girl. I am really excited for you. I think your life is going to greatly improve and quickly. When you have the world's best relationship with your girl life can be, well, pretty sweet! Sex is awesome! The way she takes care of you is incredible! The way you think about life is astonishingly different-perfect actually! I want to encourage you to really get ready for the task at hand. Listen; there is a window of opportunity, starting now, that is opened up for you to make a decision right now to change your future for the best. You can't get this moment back, and, yet, it does require that you open up your mind to what is possible, take a leap of faith, suspend any doubt or disbelief you may have, and simply have faith that your life is about to move in a new and more positive direction. People who wait; who are indecisive; who can't seem to make a right decision, when it is presented to them as an opportunity, these people live in mediocrity. Don't be one of these people. Read this book. Learn from it. Apply what you learn. And, create a better life for you and your girl-a life that is happy and one that rewards both of you equally. To do this you first have to make the decision that you are going to take action now and obedience train your girl and simply take control of her mind so you can make her decisions for her-and, well, be a man. Read this book now. Do not delay. Your future is at stake. You do not want to make a mistake. Read this book now. -The Nameless Hypnotist

Brainwashed! America's Cultural Revolution Mar 18 2020 The astonishing premise of this most important and timely book is that a large percentage of the U.S. population has been as brainwashed as the "Red Guard" during Mao's Cultural Revolution, and an American Cultural Revolution is already underway. This Revolution will be devastating to the lives of our children. Our public schools were traditionally the cornerstone of our country's values, teaching students how to think, not what to think. Now extremist educators indoctrinate their students and recruit them to political movements steeped in critical race theory and "social justice." They promote hatred of law enforcement and the rejection of traditional American values. Our country's youngest generations have been brainwashed to believe the United States is evil and racist and can only be saved by Marxism. With accurate predictions in writing in eight books, Minkin's proven to be very credible. Moreover, over five decades as a futurist, professional speaker, author, world affairs expert, and Senior Management Consultant at Stanford Research Institute; I've developed a reputation for "tell it like it is" objectivity. I've debated the global economy on Larry King Live with the late Robert Bartley; the editor of the Wall Street Journal called me the most "influential person in journalism. To prove the controversial brainwashing claim, he dispels dangerous politically correct myths using facts. This book blasts apart such lies as: systemic racism, the cause of George Floyd's death, illegal immigration does more good than harm, there is no voter fraud, police target Blacks, and many more bubblemasters. The book is packed full with facts and unique insights including: -How corrupt Civil Rights leaders created the "Great Con" and developed it into a multibillion-dollar victimization and "divisive" business-How slogans and myths were used to brainwash the public-How radicals metastasized throughout our universities and brainwash students-Why the EEOC is a very dangerous organization -Who funds the radical Left-How and why almost every sector of society bought into the myths, reinforcing rather than dispelling them-Why Google and a monolithic media now serve as a propaganda arm of the Left, reinforcing brainwashing using Third World type censorship-How BLM is using billions to destroy America-Why selection by color and sex over merit goes against the Civil Rights Act -How brainwashed Americans gave Biden a win-How America's Cultural Revolution will destroy our economy, security, race relations, constitution, and values -Why anti-Semitic/Zionism is on the rise. -Who is abusing our judicial system-What are the immigration facts and myths

The Manipulated Mind Jan 20 2023 Ever since American prisoners of war in Korea suddenly switched sides to the Communist cause, the concept of brainwashing has continued to fascinate and confuse. Is it really possible to force any thinking person to act in a way completely alien to his character? What makes so-called brainwashing so different from the equally insidious effects of indoctrination and conditioning, or even advertising and education? Research findings from psychology show that brainwashing is not a special subversive technique; it is the clever manipulation of unrealized influences that operate in all our lives. This book, by breaking down so-called brainwashing to its individual elements, shows how social conditioning, need for approval, emotional dependency and much else that we are unaware of, prevent us from being as self-directed as we think; and, conversely, which human traits make us the least susceptible to subtle influence.

THE RAPE OF MIND. THE PSYCHOLOGY OF THOUGHT CONTROL, MENTICIDE, AND BRAINWASHING. BY JOOST A. M. MEERLOO. Feb 26 2021

Brutal Minds Oct 25 2020 "If you are scratching your head as to how radicals could have seized control in Washington, and of American media, while defaming American democracy as a 'white supremacist' nightmare, look no further than the left's transformation of American universities into ideological boot camps for Marxist treachery. BRUTAL MINDS is a model of clarity and straight talk about this national tragedy, whose destructive energies have yet to run their course." —DAVID HOROWITZ, Bestselling Author of FINAL BATTLE Much of university life is controlled by subsidized paranoiacs, amateur psychotherapists, neo-Marxist totalitarians, "student affairs professionals" imbued with authoritarian mentality, and racist thought reformers who run workshops that destroy family ties and traditional beliefs to clear the way for new relationships grounded in racist ideology. These are the brutal minds who threaten and abuse students in the name of an academic fraud called "antiracist pedagogy." In BRUTAL MINDS, award-winning professor Stanley K. Ridgley exposes the dangers of radicalization, cancel culture, academic censorship, and the growing influence of socialists "boldly transforming" colleges across the country into reeducation camps of dull conformity. An educational charade masks activities and ideology as dangerous as those that inspired Communist China's tragic Cultural Revolution. This book strips away the façade of the modern American university to reveal the malignant bureaucratic viscera inside the institution. It is a dark world, an anti-intellectualist sanctuary where brutal minds find purpose, protection, camaraderie, subsidy, and power. Dr. Ridgley's book calls us to action to halt this anti-intellectual

takeover of higher education and to restore the greatness of one of Western civilization's most brilliant creations, the American University. "A tale of how one of history's great institutions—the American university—is undergoing an infiltration by an army of mediocrities whose goal is to destroy it as an institution of knowledge creation and replace it with an authoritarian organ of ideology and propaganda." —From the Preface to BRUTAL MINDS

Brainwashing Apr 30 2021 The events of January 6, 2021 gave new currency to the idea of brainwashing. Some claimed that Trump's followers had been brainwashed, while others insisted that a 'deep state' had brainwashed most Americans into accepting a rigged election. Scholars who explain that brainwashing theories have long been rejected by most academics and courts of law find it difficult to be heard. Brainwashing nevertheless remains a convenient explanation of how seemingly normal citizens convert to unusual religious or political ideologies. This Element traces its origins to the idea that conversion to deviant beliefs is due to black magic. A more scientific hypnosis later replaced magic and the Cold War introduced the supposedly infallible technique of brainwashing. From the 1960s, new religious movements, more commonly called cults, were accused of using brainwashing. Most scholars of religion reject the theory as pseudoscience, but the controversy continues to this day.
